Serious neglect can also occur if an adult fails to adequately ensure the safety of a child where the child is exposed to extremely dangerous or life-threatening situations.

Possible physical indicators:

- Frequent hunger

Staff and volunteers

This policy guides our staff and volunteers on how to behave with children in our organisation. All our staff and volunteers must agree to abide by our code of conduct which specifies the standards of conduct required when working with children. All staff and volunteers, as well as children and their families, are given the opportunity to contribute to the development of the code of conduct. Volunteers and visiting staff are required to sign on to the school code of conduct as they enter the school and be cognisant of the contents of this policy before they enter the school.

Training and supervision

Training and education are important to ensure that everyone in our organisation understands that child safety is everyone's responsibility. Springside West Secondary College's organisational culture aims for all staff and volunteers (in addition to parents/carers and children) to feel confident and comfortable in discussing any allegations of child abuse or child safety concerns. We train our staff and volunteers to identify, assess, and minimise risks of child abuse and to detect potential signs of child abuse. We also support our staff and volunteers through ongoing supervision to:

- develop their skills to protect children from abuse
- promote the cultural safety of Aboriginal children
- be culturally safe of children from linguistically and/or diverse backgrounds, and the safety of children with a disability.

New employees and volunteers will be supervised regularly to ensure they understand our organisation's commitment to child safety and that everyone has a role to play in protecting children from abuse, as well as checking that their behaviour towards children is safe and appropriate (please refer to this organisation's code of conduct to understand appropriate behaviour further). Any inappropriate behaviour will be reported through appropriate channels, including the Department of Health and Human Services and Victoria Police, depending on the severity and urgency of the matter.

Recruitment

We take all reasonable steps to employ skilled people to work with children. We develop selection criteria and advertisements which clearly demonstrate our commitment to child safety and an awareness of our social and legislative responsibilities. Our organisation understands that when recruiting staff and volunteers we have ethical as well as legislative obligations. We actively encourage applications from Aboriginal peoples, people from culturally and/or linguistically diverse backgrounds and people with a disability. All people engaged in child-related work, including volunteers, are required to hold a Working with Children Check and to provide evidence of this Check. Please see the [Working with Children Check](#) website for further information. New staff are to be directed to the Protect website at the school induction process. We carry out reference checks and police record checks to ensure that we are recruiting the right people. Police record checks are used only for the purposes of recruitment and are discarded after the recruitment process is complete. We do retain our own records (but not the actual criminal record) if an applicant's criminal history

affected our decision-making process. If during the recruitment process a person's records indicate a criminal history, then the person will be given the opportunity to provide further information and context. Staff will be recruited via Recruitment Online, and the requirements of Child Safety Standards will be made clear as a part of that process.

Fair procedures for personnel

The safety and wellbeing of children is our primary concern. The decisions we make when recruiting, assessing incidents, and undertaking disciplinary action will always be thorough, transparent, and based on evidence. We record all allegations of abuse and safety concerns using our incident reporting form, including investigation updates. All records are securely stored. If an allegation of abuse or a safety concern is raised, we provide updates to children and families on progress and any actions we as an organisation take. We follow our response to allegations flowchart closely to meet our expectations in this area.

Privacy

All personal information considered or recorded will respect the privacy of the individuals involved, whether they be staff, volunteers, parents or children, unless there is a risk to someone's safety. We have safeguards and practices in place to ensure any personal information is protected. Everyone is entitled to know how this information is recorded, what will be done with it, and who will have access to it.

Legislative responsibilities

Our organisation takes our legal responsibilities seriously, including:

- **Failure to disclose:** Reporting child sexual abuse is a community-wide responsibility. All adults in Victoria who have a reasonable belief that an adult has committed a sexual offence against a child under 16 have an obligation to report that information to the police.
- **Failure to protect:** People of authority in our organisation will commit an offence if they know of a substantial risk of child sexual abuse and have the power or responsibility to reduce or remove the risk but negligently fail to do so.
- Any personnel who are **mandatory reporters** must comply with their duties.

Risk management

In Victoria, organisations are required to protect children when a risk is identified (see information about failure to protect above). In addition to general occupational health and safety risks, we proactively manage risks of abuse to our children. We have risk management strategies in place to identify, assess, and take steps to minimise child abuse risks, which include risks posed by physical environments (for example, any doors that can lock), and online environments (for example, no staff or volunteer is to have contact with a child in organisations on social media).

Regular review

This policy will be reviewed every two years and following significant incidents if they occur. We will ensure that families and children can contribute. Where possible we do our best to work with local Aboriginal communities, culturally and/or linguistically diverse communities and people with a disability.

Allegations, concerns and complaints

Our organisation takes all allegations seriously and has practices in place to investigate thoroughly and quickly. Our staff and volunteers are trained to deal appropriately with allegations.

We work to ensure all children, families, staff and volunteers know what to do and who to tell if they observe abuse or are a victim, and if they notice inappropriate behaviour. We all have a responsibility to report an allegation of abuse if we have a reasonable belief that an incident took place (see information about failure to disclose above). At all times staff are required to follow our response to complaints flow chart, and pro-formas to make complaints are attached to this policy in appendix one.

If an adult has a **reasonable belief** that an incident has occurred, then they must report the incident. Factors contributing to reasonable belief may be:

- a child states they or someone they know has been abused (noting that sometimes the child may in fact be referring to themselves).
- behaviour consistent with that of an abuse victim is observed.
- someone else has raised a suspicion of abuse but is unwilling to report it.
- observing suspicious behaviour.

Child Safe Standards – Standard one

Strategies to embed a culture of child safety at the school

The School Council and staff share overall responsibility for ensuring a culture of child safety is embedded at the school. The following strategies are essential in developing and embedding a child safe culture in our school:

- The diverse needs of children in the school are to be recognised. It is important that our school is inclusive and a culturally safe place for children and parents. Younger children, children with a disability, indigenous children and children from culturally diverse backgrounds may require greater levels of support and consideration.
- Include child safety as a standing item on Leadership Team and Staff Meeting agendas.
- Key people in the school are allocated to undertake child safety roles and responsibilities. See School Child Safety Leader Role and Responsibilities below.
- Communicate the school's stand on child safety that informs all people in the school community of the school's Child Safe Policy based on Ministerial Order 870. Communicate broadly and with a mix of tools: website, Facebook, handbooks, induction kits, staff meetings, parent meetings etc.

Leadership in a child safe environment

Working with children can be very rewarding and it brings additional responsibilities. Springside West Secondary College will protect children from abuse and build an environment where children feel respected, valued and encouraged to reach their full potential. A Child Safe Leader will have the responsibility of working with School Council and staff to build and maintain a culture of transparency, inclusiveness and awareness. Children and adults will know what to do if they observe or are subjected to abuse or inappropriate behaviour. Key responsibilities of the Child Safe leader include:

- Acting as a source of support, advice and expertise to School Council, staff, students and parents
- Liaising with the principal and other school leaders to ensure a collaborative, transparent and unified approach to child safety
- Leading the development of the school's child safe culture including being a child safe champion and providing coordination in communicating, implementing, monitoring, enhancing and reporting on strategies to embed a culture of child safety.

Governance in a child safe environment

Overall, School Council has the responsibility of ensuring the safety and wellbeing of children in our school.

The school's policies, events, activities and management practices will consider the Child Safe Standards. Raising awareness across the school including staff, students and teachers and others who encounter children in the school:

- Ensure the school's policies are known and used appropriately.
- Ensure the school actions are reviewed, as to the effectiveness of the strategies put into place and to revise accordingly.
- Ensure the school's child safety policy is reviewed in the context of school self-evaluation undertaken as part of the school accountability framework. This being incorporated into the Annual Implementation Plan, Strategic Plan and the 4 yearly review process.
- Conduct regular briefing sessions for school staff members to ensure a high degree of awareness of the child safe standards and the school's Child Safety policy.
- Ensure the child protection policy is available publicly and parents know referrals about suspected abuse or neglect may be made and the role of the school in this. The policy will be published online (school's website and Facebook), be paper based, provided verbally at information nights for parents, transition forums for new parents in the school and through school council's communication channels.
- Encourage amongst staff a culture of listening to children and taking account of their wishes and feelings in any measures to protect them.
- Work with teachers to include, where appropriate, the inclusion of teaching points into curriculum programs i.e. cyber safety programs, School Wide Positive Behaviour program, health and well-being related programs to build a culture of pro-activity and healthy relationships.

Identifying and analysing risk of abuse

Springside West Secondary College will adopt an approach to prevent, detect and respond to child abuse risks. This includes a risk management strategy and policy that sets out how our school identifies, assesses and takes steps to reduce or remove child abuse risks. In its commitment to Child Safety Standards, Springside West Secondary College has developed a Child Safe Policy. This policy outlines our commitment to promoting children's wellbeing and protecting children from abuse. Springside West Secondary College has developed a code of conduct which specifies the standards of conduct and care required when working and interacting with children. Teachers are regulated by the Victorian Institute of Teaching (VIT) under the Victorian Teaching Profession Code of Conduct. The Victorian Institute of Teaching (VIT) developed the Code of Conduct as required by Part 2.6 of the *Education and Training Reform Act 2006*. The Code of Conduct is a set of principles or standards for the behaviour and conduct of all Victorian teachers in the Victorian Government Teaching Service and the non-Government sector. The following principles are of relevance when using social media tools:

- ***Principle 1.5:*** Teachers are always in a professional relationship with the students in their school whether at school or not. Teachers hold a unique position of influence and trust that should not be violated or compromised. They exercise their responsibilities in ways that recognise that there are limits or boundaries to their relationships with students.
- ***Principle 1.7:*** Teachers work in collaborative relationships with students' families and communities.
- ***Principle 2.1:*** The personal conduct of a teacher will have an impact on the professional standing of that teacher and on the profession as whole. While teachers can be friendly with students, parents and communities their relationship must always remain professional and should never be on a personal footing. It is important for teachers to consider the consequences of their actions. The world of social media can seriously damage reputations and propel bullying to new levels. Even with security settings in place, issues may still arise.

Chosen suitable employees and volunteers

Springside West Secondary College takes all reasonable steps to ensure that it engages the most suitable and appropriate people to work with children. Alongside the Department of Education and Training (DET) recruitment processes, it will ensure it includes:

- ▶ Selection criteria in job descriptions
- ▶ Police record and identity checks
- ▶ Working with Children Checks

- ▶ Face-to-face interviews
- ▶ Detailed reference checks from previous employers, including from the applicant's most recent line manager

Supported, trained, supervised and enhanced performance

Springside West Secondary College ensures that volunteers and employees who work with children have ongoing supervision, support and training so that their performance is developed and enhanced to help protect children from abuse. In particular, the principal and leadership team understand their responsibilities.

Child Safe Standards – Standard Two

Commitment to Child Safety Policy

Purpose

The child safety policy sets out the school's approach to creating a child safe organisation where children and young people are safe and feel safe; and provides the policy framework for the school's approach to the Child Safe Standards.

Scope and Audience

The policy covers all staff, volunteers, contractors (whether they meet children and applies to all school related activities including those beyond the school environment i.e. camps, excursions, outside hours care, holiday programs (YMCA as a partner provider)

Our commitment to child safety

Springside West Secondary College is committed to safety and wellbeing of all children and young people. This will be the primary focus of our care and decision-making. **The school has zero tolerance for child abuse.** The school is committed to providing a child safe environment where children and young people are and feel safe, and their voices are heard about decisions that affect their lives. Attention will be paid to cultural safety of Aboriginal children, young children, children from culturally and/or linguistically diverse backgrounds, as well as the safety of children with a disability.

Every person involved in the school has a responsibility to understand the important and specific roles they play individually and collectively to ensure that the wellbeing and safety of all children and young people is at the forefront of all they do and every decision they make. In its planning, decision making and operations Springside West Secondary College will:

- take a preventative, proactive and participatory approach to child safety.
- value and empower children to participate in decisions which affect their lives.
- foster a culture of openness that supports all persons to safely disclose risks of harm to children. This will be supported by all staff understanding their child safety role, being mindful of and building respectful and safe relationships between children and their teachers and other school staff.
- respect diversity in cultures and child rearing while keeping child safety paramount.
- provide written guidance on appropriate conduct and behaviour towards children.
- engage only the most suitable people to work with children and high-quality staff and volunteer supervision and professional development.
- ensure children know who to talk with if they are worried or are feeling unsafe, and that they are comfortable and encouraged to raise issues. Our school is structured around learning neighbourhoods and so all children will be able to forge strong and respectful relationships in their learning spaces with multiple teachers thereby giving them opportunities to seek support from several significant others in their immediate day to day learning environment.

Policy and Procedures

Policies and procedures outlining the school's approach to the Child Safe Standards are outlined below. The school's Child Safe Leader may be contacted for more information.

All staff and volunteers, as well as children and their families, are given the opportunity to contribute to the development of the code of conduct. (Appendix three). The school's plan for creating a child safe culture can be found on the school's website, in other written documentation available from the school.

Personnel understand their roles and responsibilities/Code of Conduct

School leaders and the principal team will ensure that each person understands their role, responsibilities and behaviour in protecting children and young people from abuse and neglect. Staff will comply with the school's Code of Conduct. The Code will be discussed and a shared collectively to ensure staff understand the Code's content. The content will form part of the first curriculum day of each school year, to tune staff into their child safe responsibilities. New staff will have the Code of Conduct provided to them as part of their induction, so that they will have the same understanding as all other staff, and in turn, apply it accordingly. The school's Code of Conduct sets out clear awareness of the difference between appropriate and inappropriate behaviour and can be found on the school's website, alongside the Child Safe Policy.

Human Resources, Practices and Training

The school applies best practice and standards in the recruitment and screening of staff and will take all reasonable steps to ensure that it engages the most suitable and appropriate people to work with children. We will ensure that staff induction, education and training programs are a vital part of our commitment to safeguarding children and young people from abuse and neglect. All prospective staff and volunteers are required to undergo National Criminal History Records check and maintain a valid Working with Children Check. We take all reasonable steps to employ skilled people to work with children. We develop selection criteria and advertisements which clearly demonstrate our commitment to child safety and an awareness of our social and legislative responsibilities. Our school understands that when recruiting staff and volunteers we have ethical as well as legislative obligations. We carry out reference checks and police record checks to ensure that we are recruiting the right people. Police record checks are used only for the purposes of recruitment. If during the recruitment process a person's records indicate a criminal history, then the person will be given the opportunity to provide further information and context.

Training and supervision

Training and education are important to ensure that everyone in our school understands that child safety is everyone's responsibility. Our school culture aims for all staff and volunteers (in addition to parents/carers and children) to feel confident and comfortable in discussing any allegations of child abuse or child safety concerns. We train our staff to identify, assess, and minimise risks of child abuse and to detect potential signs of child abuse. We also support our staff and volunteers through ongoing supervision to:

- develop their skills to protect children from abuse
- promote the cultural safety of Aboriginal children,
- and be culturally safe of children from linguistically and/or diverse backgrounds, and the safety of children with a disability.

New employees and volunteers will be supervised regularly to ensure they understand our school's commitment to child safety and that everyone has a role to play in protecting children from abuse, as well as checking that their behaviour towards children is safe and appropriate (please refer to this school's code of conduct to understand appropriate behaviour further). Any inappropriate behaviour will be reported through appropriate channels, including the Department of Health and Human Services and Victoria Police, depending on the severity and urgency of the matter. The school's approach to human resources practices that ensure child safety can be found on the school's website along with all other school policies.

Allegations & reporting a child safety concern or complaint

Springside West Secondary College has clear expectations for staff and volunteers in making a report about a child or young person who may need protection. Immediate action should include reporting their concerns to the DHHS Child Protection or another appropriate agency and notifying the principal or a member of the school leadership team of their concerns and the reasons for those concerns. The school will take action to respond to a complaint. The safety and wellbeing of children is our primary concern. The decisions we make when recruiting, assessing incidents, and undertaking disciplinary action will always be thorough, transparent, and based on evidence. We record all allegations of abuse and safety concerns including investigation updates. All records are securely stored. The school's policy and procedures for reporting a child safety concern or complaint can be found on the school's website along with all other school policies. Our school takes all allegations seriously and has practices in place to investigate thoroughly and promptly. Our staff and volunteers are trained to deal appropriately with allegations. We work to ensure all children, families, staff and volunteers know what to do and who to tell if they observe abuse or are a victim, and if they notice inappropriate behaviour. We all have a responsibility to report an allegation of abuse if we have a **reasonable belief** that an incident took place. If an adult has a reasonable belief that an incident has occurred, then they must report the incident. Factors contributing to **reasonable belief** may be:

- a child states they or someone they know has been abused (noting that sometimes the child may in fact be referring to themselves).
- behaviour consistent with that of an abuse victim is observed.
- someone else has raised a suspicion of abuse but is unwilling to report it.
- observing suspicious behaviour.

Legislative responsibilities

Failure to disclose: Reporting child sexual abuse is a community-wide responsibility. All adults in Victoria who have a reasonable belief that an adult has committed a sexual offence against a child under 16 have an obligation to report that information to the police. **Failure to protect:** People of authority in our school will commit an offence if they know of a substantial risk of child sexual abuse and have the power or responsibility to reduce or remove the risk but negligently fail to do so. Any personnel who are **mandatory reporters** must comply with their duties.

Risk Reduction and Management

Our school takes our legal responsibilities seriously, including:

- All Victorian Teachers have a legal responsibility to report incidents where children's safety is at risk.
- Victorian Government School employees are expected to follow the DET Mandatory Reporting policy which can be found at <http://www.education.vic.gov.au/school/principals/spag/safety/Pages/childprotection.aspx>
- The school believes the wellbeing of children and young people is paramount and is vigilant in ensuring proper risk management processes.
- The school recognises there are potential risks to children and young people and will take a risk management approach by undertaking preventative measures.
- We have risk management strategies in place to identify, assess, and take steps to minimise child abuse risks, which include risks posed by physical environments (for example, any doors that can lock), and online environments (for example, no staff or volunteer is to have contact with a child in schools on social media).
- The school's approach to Child Safety risk reduction and management can be found on the school's website along with all other school policies.

Child safety can be improved by removing or reducing the risk of harm.

Springside West Secondary College has the following in place to reduce the risk of harm to children:

- A child safety policy that outlines a commitment to child safety and provides guidance on how to create a child safe environment.
- A code of conduct is enforced and sets out clear expectations about appropriate behaviour towards children and obligations for reporting a breach of the code.
- All new staff and volunteers are appropriately screened, including reference checks, before commencing employment with the organisation (in addition to Working with Children Checks or Victorian Institute of Teaching registration).
- Training is provided to staff in prevention, identification and response to child safety risks, including reporting requirements and procedures

If staff/other school personnel are unsure whether to act, or what action they should take, they are to discuss this with the principal and/or Child Safe Leader and contact authorities for further advice.

Communication Approaches for Volunteers, contractors, and families

Volunteers and contractors may be engaged in work at a school regularly or occasionally, for long or short periods of time. Volunteers and contractors need to understand their responsibilities for child safety and the college's arrangements under standard one and standard two. These approaches include:

- providing advice on our website about what to expect if working or volunteering at the school
- e.g. that volunteers are required to adhere to the child safety code of conduct
- clear notices about contractor and volunteer responsibilities in areas they are likely to spend time in such as the canteen, assembly hall, sports stadium
- provision of relevant child safety information in tendering and contracting information packages and volunteer induction kits / sessions.

Communication with Families

Springside West Secondary College has several measures in place to communicate with families of children enrolled at the school. These measures are likely to include the school's website and Compass for individual and group messages, school assemblies and information evenings to share information. Communications strategies to inform families of the school's arrangements include:

- asking families to acknowledge they have read information sent to them with either a reply email
- Inclusion of information about Child Safe standards in parent information evenings i.e. Prep transition parent evenings and orientation events for new students and families.
- adapting the examples provided in the *VRQA Child Safety Code of Conduct – Acceptable and Unacceptable Behaviour* information sheet to show the standards in day-to-day application within the school community providing translations of key messages from the standards for families into one or more languages other than English, depending on the school's community.

Communicating Child Safe Expectations to Visitors

Visitors to Springside West Secondary College form part of the school's community. Communication approaches include:

- providing advice on the website about what to expect if visiting the school
- displaying clear notices about visitor and volunteer responsibilities in areas they are likely to frequent, such as the canteen, assembly hall, sports stadium.

Confidentiality and Privacy

The school collects, uses and discloses information about children and their families in accordance with Victorian privacy laws. All personal information considered or recorded will respect the privacy of the individuals involved, whether they be staff, volunteers, parents or children, unless there is a risk to someone's safety. We have safeguards and practices in place to ensure any personal information is protected. Everyone is entitled to know how this information is recorded, what will be done with it, and who will have access to it.

Child Safe Standards – Standard Three

Child Safe Code of Conduct

Rationale

The purpose of this Code of Conduct is to guide school staff in identifying and regulating their own behaviour and the behaviour of other school staff, and to protect children from abuse in the school environment. Springside West Secondary College will, develop, adopt, review and maintain a Child Safety Code of Conduct and have this endorsed by the School Council. The Code of Conduct is consistent with school policies related to student supervision, duty of care, volunteers, camps and excursions, antibullying policy and disciplinary procedures described in the Student Engagement Policy.

Code of Conduct

Springside West Secondary College is committed to the safety and wellbeing of children and young people. Our school community recognises the importance of, and a responsibility for, ensuring our school is a safe, supportive and enriching environment which respects and fosters the dignity and self-esteem of children and young people, and enables them to thrive in their learning and development.

This Code of Conduct aims to protect children and reduce any opportunities for child abuse or harm to occur. Training and induction

Training and education are an important strategy to help people understand that child safety is everyone's responsibility. Staff will receive induction and ongoing training in Child Safe standards. New staff will be provided with support and information when they begin their new role and existing staff will be provided with ongoing support to develop new skills and knowledge to meet the requirements of their positions. Child Safety will be a standing item on staff meetings and other team agendas with DET's PROTECT resources providing the basis for ongoing learning.

Employees and volunteers working with children will receive training in the following areas:

- identifying, assessing and reducing or removing child abuse risks.
- Springside West Secondary College's policies and procedures (including the Code of Conduct and Child Safe Policy).
- legislative requirements, such as obligations to protect and report child abuse, reduce and remove known risks of child abuse, and to hold Working with Children Checks where required.
- how to handle a disclosure or suspicion of abuse, including your organisation's reporting guidelines.
- cultural awareness training can be formal such as:
 - higher education training and accreditation
 - training offered by external organisations
 - training developed and delivered internally
 - on-the-job training meeting key objectives
 - mentoring and coaching

The school will use a part of its mandated curriculum day at the commencement of each school year or a PD session within the first 2 weeks of the year to allow the staff to undertake the on-line learning module.

Supervision

Supervision of employees and volunteers is managed in a way that protects children from abuse and improves accountability and performance, without being onerous or heavy-handed. For instance, where practical, two staff members are present during activities with children. Children with a disability may require additional supervision.

Performance and development review

A proactive performance development strategy is used to improve employees and volunteers' skills and knowledge on child safety. This is also an opportunity to improve knowledge and skills in working with children, as well as recognising and responding to suspected abuse. Performance is measured against Department of Education and Training, Victorian Institute of Teaching and Springside West Secondary College's standards of conduct and care to ensure that employees and volunteers meet expected outcomes. These standards align with those of the Code of Conduct and Child Safe Policy so everyone can be aware of the expectations of our school and appropriate behaviour.

Code of conduct and disciplinary procedures

Disciplinary procedures are accessible and transparent and clearly demonstrate the consequences of breaches of the code of conduct. These procedures will be used if an allegation of child abuse is made, or a breach of the code of conduct is known or suspected. Employees and volunteers will be made aware of reporting and disciplinary procedures and how to communicate concerns regarding the improper behaviour of any person within Springside West Secondary College. Members of our school will also be made aware of their duty to raise concerns about the behaviour of any person who may present a risk of child abuse, without fear of repercussions. Our Code of Conduct is to be publicly available. Children and their families will be encouraged to raise any concerns about the behaviour of any person and can expect to be listened to and supported.

Child Safe Standards – Standard Five

Responding to allegations of suspected child abuse

This policy statement should be read in conjunction with Springside West Secondary College's Child Safe Standards: Child abuse (including grooming) – identification and response policy. At Springside West Secondary College, procedures for responding to allegations of child abuse apply to allegations or disclosures of child abuse made in relation to a child, by school staff, visitors or any other person connected to our school environment. Whether a school staff member, visitor, maintenance person, contract staff member etc., each adult has a duty to take reasonable steps to protect children under their care and/or supervision from harm that is reasonably foreseeable (this applies to ALL persons connected to the school environment). The question of what constitutes **"reasonable steps"** will depend on the individual circumstances of each case. In relation to suspected child abuse, reasonable steps may include (but are not necessarily limited to):

- acting on concerns and suspicions of abuse as soon as practicable
- seeking appropriate advice or consulting with other professionals or agencies when the school staff member is unsure of what steps to take
- reporting the suspected child abuse to appropriate authorities such as the Victoria Police and DHHS Child Protection
- arranging counselling and/or other appropriate welfare support for the child providing on-going support to the child – this may include attending DHHS Child Protection Case Planning meetings, and convening regular Student Support Group meetings
- sharing information with other school-based staff who will also be responsible for monitoring and providing on-going support to the child.

It is particularly important for visitors and/or others associated with the school such as contractors, maintenance personnel etc. to seek out school personnel who can assist and advice regarding further steps that need to be taken.

NOTE: Duty of care also extends to students who are aged 17 years and over; In circumstances where you suspect that a student over the age of 17 is subject to abuse you should still follow the Four Critical Actions for Schools:

Responding to Incidents, Disclosures or Suspicions of Child Abuse. Although DHHS Child Protection work with children under 17 they can still be contacted with concerns relating to students 17 and over for referral and advice.

Different types of abuse and recognising the possible physical and behavioural indicators of:

- physical abuse.
- sexual abuse.
- Grooming.
- emotional or physiological harm.
- Neglect.
- family violence.

When identifying child abuse, it is critical to remember that:

- the trauma associated with child abuse can significantly impact upon the wellbeing and development of a child.
- all concerns about the safety and wellbeing of a child, or the conduct of a staff member, contractor or volunteer must be acted upon as soon as practicable.

What is physical child abuse?

Physical child abuse can consist of any non-accidental infliction of physical violence on a child by any person. Examples of physical abuse may include beating, shaking or burning, assault with implements and female genital mutilation (FGM).

PHYSICAL indicators of physical child abuse include (but are not limited to):

- bruises or welts on facial areas and other areas of the body, e.g. back, bottom, legs, arms and inner thighs.

Child sexual abuse does not always involve force. In some circumstances a child may be manipulated into believing that they have brought the abuse on themselves, or that the abuse is an expression of love, through a process of grooming.

Who is most at risk of child sexual abuse?

Any child can be victim to sexual abuse, however children who are vulnerable, isolated and/or have a disability are much more likely to become victim and are disproportionately abused. Perpetrators can include (but are not limited to):

- a family member (this is known as intra family abuse and can include sibling abuse)
- a school staff member, coach or other carer a peer/child 10 years or more in age
- a family friend or stranger a person via a forced marriage (where a student is subject to a marriage without their consent, arranged for by their immediate or extended family - this constitutes a criminal offence and must be reported).

**Unwanted sexual behaviour toward a student by a person 10 years or over can constitute a sexual offence and is referred to as student-to-student sexual offending. Sometimes it is hard to see when someone is being groomed until after they have been sexually abused, because some grooming behaviour can look like “normal” caring behaviour.

What is online grooming?

Online grooming is a criminal offence and occurs when an adult uses electronic communication (including social media) in a predatory fashion to try to lower a child’s inhibitions, or heighten their curiosity regarding sex, with the aim of eventually meeting them in person for the purposes of sexual activity. - being picked up in a car by the 'friend' from home/school or 'down the street'.

What is emotional abuse?

Emotional child abuse occurs when a child is repeatedly rejected, isolated or frightened by threats, or by witnessing family violence. It also includes hostility, derogatory name-calling and put-downs, and persistent coldness from a person to the extent that the child suffers, or is likely to suffer, emotional or psychological harm to their physical or developmental health. Emotional abuse may occur with or without other forms of abuse.

PHYSICAL indicators of emotional abuse include (but are not limited to):

- speech disorders such as language delay, stuttering or selectively being mute (only speaking with certain people or in certain situations).
- delays in emotional, mental or physical development.

BEHAVIOURAL indicators of emotional abuse include (but are not limited to):

- overly compliant, passive and undemanding behaviour.
- extremely demanding, aggressive and attention-seeking behaviour or anti-social and destructive behaviour.
- low tolerance or frustration.
- poor self-image and low self-esteem.
- unexplained mood swings, depression, self-harm or suicidal thoughts.
- behaviours that are not age-appropriate, e.g. overly adult, or overly infantile.
- fear of failure, overly high standards, and excessive neatness.
- poor social and interpersonal skills.
- violent drawings or writing.
- lack of positive social contact with other children.

What is neglect?

Neglect includes a failure to provide the child with an adequate standard of nutrition, medical care, clothing, shelter or supervision to the extent that the health or physical development of the child is significantly impaired or placed at serious risk. In some circumstances the neglect of a child:

- can place the child's immediate safety and development at serious risk.
- may not immediately compromise the safety of the child but is likely to result in longer term cumulative harm.

PHYSICAL indicators of neglect include (but are not limited to):

- appearing consistently dirty and unwashed.
- being consistently inappropriately dressed for weather conditions.
- being at risk of injury or harm due to consistent lack of adequate supervision from parents.
- being consistently hungry, tired and listless.
- having unattended health problems and lack of routine medical care.
- having inadequate shelter and unsafe or unsanitary conditions.

BEHAVIOURAL indicators of neglect include (but are not limited to):

- gorging when food is available or inability to eat when extremely hungry.
- begging for or stealing food.
- appearing withdrawn, listless, pale and weak.
- aggressive behaviour, irritability.
- involvement in criminal activity.

- little positive interaction with parent, carer or guardian.
- poor socialising habits.
- excessive friendliness towards strangers.
- indiscriminate acts of affection.
- poor, irregular or non-attendance at school.
- staying at school for long hours and refusing or being reluctant to go home.
- self-destructive behaviour.
- taking on an adult role of caring for parent.

There are many indicators of child abuse and neglect. The presence of a single indicator, or even several indicators, does not prove that abuse or neglect has occurred. However, the repeated occurrence of an indicator, or the occurrence of several indicators together, should alert teachers to the possibility of child abuse and neglect.

What is family violence?

Family violence can include physical violence or threats, verbal abuse, emotional and physical abuse, sexual abuse and financial and social abuse. A child's exposure to family violence constitutes child abuse. This exposure can be very harmful and may result in long-term physical, psychological and emotional trauma. Action must be taken to protect the child, and to mitigate or limit their trauma.

PHYSICAL indicators of family violence include (but are not limited to):

- speech disorders.
- delays in physical development.
- failure to thrive (without an organic cause).
- bruises, cuts or welts on facial areas, and other parts of the body including back bottom, legs, arms and inner thighs.
- any bruises or welts (old or new) in unusual configurations, or those that look like the object used to make the injury (such as fingerprints, handprints, buckles, iron or teeth).
- internal injuries.

BEHAVIOURAL indicators of family violence include (but are not limited to):

- violent/aggressive behaviour and language.
- depression and anxiety and suicidal thoughts.
- appearing nervous and withdrawn, including wariness of adults.
- difficulty adjusting to change.
- psychosomatic illness
- bedwetting and sleeping disorders.
- 'Acting out', such as cruelty to animals.
- extremely demanding, attention-seeking behaviour.
- participating in dangerous risk-taking behaviours to impress peers.
- overly compliant, shy, withdrawn, passive and uncommunicative behaviour.
- taking on a caretaker role prematurely, trying to protect other family members.
- embarrassment about family.
- demonstrated fear of parents, carers or guardians, and of going home.
- disengagement from school and/or poor academic outcomes.

For older children and young people indicators can also include:

- moving away/running away from home.
- entering a relationship early to escape the family home.
- experiencing violence in their own dating relationships.
- involvement in criminal activity. alcohol and substance abuse.

How should an adult respond and what should they do?

If physical and/or behavioural indicators leads to a suspicion that a child has or is being abused, or is at risk of abuse, then you must respond as soon as practicable by following the Four Steps (described below).

Responding to Incidents, Disclosures or Suspicions of Child Abuse If you believe that a student is **not** being abused, but you still hold concerns for their safety or wellbeing, refer to advice about Responding to Other Concerns About the Wellbeing of a Child (see below) to determine who to consult with, when to make a report and when to engage other wellbeing professionals. Regardless of the suspected cause, all concerns about the wellbeing of a child should be taken seriously and acted upon. This includes concerns about the wellbeing of a child, which do not appear to be the result of abuse.

You should make a referral to **Child FIRST** if:

- you have a significant concern for a child's wellbeing.
- your concerns have a low-to-moderate impact on the child.
- the child's immediate safety is not compromised.
- you/your school has discussed the referral with the family, and they are supportive of it.

You **must** contact **Victoria Police** if:

- there is any concern for a child's immediate safety.
- a child is partaking in any risk-taking activity that is illegal and extreme in nature or poses a high risk to the child.

You should contact **DHHS Child Protection** if:

- after consideration of all available information, you form a view that the child needs protection.
- you believe that the child's parent/carer will not be open to support from family services to address their child's wellbeing.
- If you are unsure whether to act, or what action to take you should discuss this with the principal and/or Child Safe Leader and contact authorities for further advice.
- The Principal, Assistant Principal and/or Child Safe Leader are responsible for:
- promptly **managing** the school's response to an allegation or disclosure of child abuse and ensuring that the allegation or disclosure is taken seriously.

All reporters who form a belief on reasonable grounds that a child or young person:

- needs protection from physical injury or sexual abuse must report their concerns to DHHS Child Protection or Victoria Police.
- is displaying sexually abusive behaviours and needs therapeutic treatment should report their concerns to DHHS Child Protection.

The reporter must:

- Make a report as soon as practicable.
- Make a report on each occasion that they form a belief.
- Ensure that a report has been made in instances where another mandated reporter has undertaken to make the report.

FAILURE TO PROTECT and FAILURE TO DISCLOSE OFFENCES

Any staff member or person associated with the school (e.g. visitor, contractor, maintenance worker etc.) who forms a reasonable belief that a sexual offence has been committed in Victoria by an adult against a child under 16 **must disclose that information to police**. Failure to disclose the information to police is a criminal offence, unless a reasonable excuse has been formed such as:

- information has already been reported to DHHS Child Protection.
- Fear for own or others' safety

The offence applies to all adults in Victoria, not just professionals who work with children. If an adult fails to take reasonable steps to protect a child from harm and/or fails to disclose, this may amount to a criminal offence. Refer to the Dept of Justice fact sheets on FAILURE to Protect and Failure to DISCLOSE for further information. If you need to report a child in immediate risk or danger of a sexual offence, please call Triple Zero (000).

Reducing or removing the risk of child sexual abuse posed by an adult associated with Springside West Secondary College.

If required, the principal (or school leadership) may need to take reasonable steps to reduce or remove a known substantial risk that an adult associated with their organisation will commit a sexual offence against a child. **Examples could include:**

- A current employee who is known to pose a risk of sexual abuse to children in the organisation should be immediately removed from contact with children and reported to appropriate authorities and investigated.
- A community member who is known to pose a risk of sexual abuse to children should not be allowed to volunteer in a role that involves direct contact with children at the organisation.
- A parent who is known to pose a risk of sexual abuse to children in a school should not be allowed to attend overnight school camps as a parent helper.
- Removing a suspected adult from child-related work pending investigation.

Action/notification to DHHS Child Protection must occur if a 'reasonable belief' has been formed. For example, a '**reasonable belief**' might be formed if:

- a child states that they have been physically or sexually abused.
- a child states that they know someone who has been physically or sexually abused (sometimes the child may be talking about themselves).
- someone who knows a child states that the child has been physically or sexually abused.
- professional observations of the child's behaviour or development lead a professional to form a belief that the child has been physically or sexually abused or is likely to be abused.
- signs of abuse lead to a belief that the child has been physically or sexually abused

A report should be made to DHHS Child Protection in circumstances were, for example:

- the child is engaging in risk-taking behaviour.
- female genital mutilation has occurred, or there is a risk of it occurring.
- there is a risk to an unborn child.
- a child or young person is exhibiting sexually abusive behaviours.
- there are indications that a child is being groomed.

The following steps describes how to make a mandatory report, to report child abuse or child protection concerns.

Step Description: In case of emergency or if a child is in immediate danger contact Triple Zero (000) or the local police station.

Alternatively, to report concerns about the immediate safety of a child within their family unit to DHHS Child Protection, call the Child Protection Crisis Line on 13 12 78 (24 hours 7 days, toll free)

1. Keep comprehensive notes that are dated and include the following information:
 - information that has led to concerns about the child's safety (e.g. physical injuries, student behaviour).
 - the source of this information (e.g. observation of behaviour, report from child or another person).
 - the actions taken because of the concerns (e.g. consultation with principal, report to DHHS Child Protection etc.).

Discuss any concerns about the safety and wellbeing of students with the principal or a member of the school leadership team. The individual staff member should then make their own assessment about whether they should make a report about the child or young person and to whom the report should be made.

2. Gather the relevant information necessary to make the report.

This should include the following information:

- full name, date of birth, and residential address of the child or young person.
 - the details of the concerns and the reasons for those concerns.
 - the individual staff member’s involvement with the child and young person.
 - details of any other agencies who may be involved with the child or young person, if known.
3. Make a report to the relevant agency. To report concerns about the immediate safety of a child within their family unit to DHS Child Protection, call the Child Protection Crisis Line on 13 12 78 (24 hrs 7 days, toll free). To report concerns to DHHS Child Protection, contact your local child protection office.
 4. Make a written record of the report which includes the following information:
 - date and time of the report and a summary of what was reported.
 - the name and position of the person who made the report and the person who received the report.
 - Notify relevant school staff and/or Department staff of a report to DHHS Child Protection or Child FIRST.

For Victorian government schools, the allegations must be reported to the:

- principal or member of the school leadership team.
- Department’s Security Services Unit on (03) 9589 6266.
- relevant Regional Office (where applicable, the Koori support officer is to be notified)
- Student Critical Incident Advisory Unit on (03) 9637 2934 or (03) 9637 2487.
- In the case of international students, the principal must notify the International Education Division on (03) 9637 2990 to ensure that appropriate support is arranged for the student.

This table describes the potential consequences of making a report.

In certain circumstances, DHHS Child Protection can also direct school staff and Department staff to provide information or documents about the protection or development of the child. Such directions should be in writing and only be made by authorised persons within DHHS Child Protection. for more information see: Requests for Information About Students</p>
Witness Summons	<p>If DHHS Child Protection makes a Protection Application in the Children's Court of Victoria, any party to the application may issue a Witness Summons to produce documents and/or to give evidence in the proceedings.</p>

In certain circumstances, the Department offers Counselling Assistance Payments to former students who report having been sexually abused while attending, or in connection with, a Victorian government school. Schools that receive a report of sexual abuse from a former student should contact the Department’s Student Critical Incident Advisory Unit on (03) 9637 2934.

Responding to suspected child abuse: for Victorian schools

School staff should use the template below to document any incident, disclosure or suspicion that a child has been, or is at risk of being abused. This document should be used in conjunction with the following: 4 Critical Actions for Schools: Responding to Incidents, Disclosures and Suspicions of Child Abuse. Whilst you may need to gather the information to make a report, remember it is not the role of school staff to investigate abuse, leave this to Victoria Police and/or DHHS Child Protection.

Recording and retaining the record

The Principal, Assistant Principal and/or Child Safe Leader will ensure the record of the allegation and the school’s response to it is made secure and retained. It is a requirement under Ministerial Order No. 870- Child Safe Standards- Managing the risk of child abuse in schools for schools to keep clear and comprehensive notes on all observations, disclosures and other details that led them to suspect the abuse.

The aim is to provide as much information as possible. This information will be critical to any reports and may be sought later if the matter is the subject of Court proceedings. These notes may assist later if required to provide evidence to support any decisions.

Staff training, awareness raising and promotion of the school observing and adhering to Child Safety regulations, will support school staff to proactively and with knowledge, prioritise reporting an allegation of child abuse to a person external to the school; further the school will support the alleged victim by responding and acting in accordance with the Ministerial Order 870 and fulfil their legal obligation to report an incident, disclosure or suspicion of child abuse. Staff are not required to make judgement about the truth of the allegation or disclosure of child abuse.

Child Safe Standards - Standard Six

Strategies to identify and reduce or remove risks of child abuse

Springside West Secondary College will mitigate, remove or reduce the risks of child abuse. In taking into account the characteristics and needs of all children (including and especially Aboriginal and Torres Strait Islander children, children with disabilities, culturally and linguistically diverse children and other vulnerable children), the School Council and principal will develop, implement, monitor and evaluate risk management strategies to ensure child safety in a range of school related environments (e.g. at school, on excursions and any school organised activities.) The school has developed a child safety plan within the Annual Implementation Plan [AIP]. In the Student Wellbeing section, Child Safety will be addressed and include identified risks and the action(s) the school will take to reduce or remove the risks (risk controls). The School Council will monitor and evaluate the overall effectiveness of the child safety plan. The plan will:

- include reference to the training and education of staff about their individual and collective obligations and responsibilities for managing the risk of child abuse.
- reference the Code Of Conduct, the 4 critical actions to be taken in response to an allegation of child abuse, and the Child Safe training and training about abuse risks in the school, that must be undertaken as scheduled (beginning of the year, induction as examples) and as the need arises (e.g. after an incident). The training, depending on the risk, would involve the School Council and/or school staff.

School Council, as part of its role to develop, oversee and ensure implementation of the AIP, will utilise the Child Safe audit tool (Appendix 6(2)) to determine adherence to the Child Safe Policy (incorporating the 7 Standards). The audit tool will be used reflectively, on an annual basis, and will be used to inform the continued focus and improvement of child safe practices within the school.

- See attached Appendix 6 (1) for the Risk Assessment Table
- See attached Appendix 6 (2) for the Audit Tool

Appendix B

Child Safe Standards - Standard Seven

Strategies to promote child empowerment and participation Child Safe Standard 7 requires the delivery of appropriate education about:

- Standards of behaviour for students attending the school.
- Healthy and respectful relationships (including sexuality).
- Resilience.
- Child abuse awareness and prevention.

Springside West Secondary College is committed to supporting and encouraging students to use their voice to raise and share their concerns with a trusted adult at any time of need. Building student confidence in knowing that they will be listened to, by an adult, when they have information to share, building personal resilience and a knowledge of knowing what to do and who can help will be areas continuously addressed by all teaching staff as a student journey through our school. The following programs/frameworks and Policy will be delivered by the school and will be prefaced on the school's commitment to child safety. School staff will be supported in their professional learning to ensure the observance and delivery of a Child Safe environment through such programs, frameworks and Policy. Curriculum documents and resources will be easily accessible to school staff.

Student Engagement Policy

The school's Student Engagement Policy provides the basis on which it develops and maintains a safe, supportive and inclusive school environment. The policy articulates the expectations and aspirations of the school community in relation to student engagement, including strategies to address bullying, school attendance and behaviour. The Policy also references the Child Safe Policy and the Child Safe Code of Conduct

School Wide Positive Behaviour Support (SWPBS)

As a new school, the school intends to make central to the positive and safe culture of the school, the SWPBS framework. It is an evidence-based framework for preventing and responding to student behaviour. It aims to create a positive school climate, culture of student competence and an open, responsive management system for all community members. A team of teaching staff will be professionally developed through the SWPBS resource as a priority. <http://www.education.vic.gov.au/school/principals/participation/Pages/wholeschoolengage.aspx>

Victorian Curriculum

The relevant domains of the Victorian Curriculum will be provided as part of the mandated curriculum delivery. Specifically, to address the Child Safe Standard 7, the following will support children at to build resilience, healthy and respectful relationships (including sexuality) and to gain insight into appropriate behaviour and what is not, hence being empowered to feel safe and to be safe.

The Personal and Social Capability curriculum aims to develop knowledge, understandings and skills to enable students to:

- recognise, understand and evaluate the expression of emotions
- demonstrate an awareness of their personal qualities and the factors that contribute to resilience
- develop empathy for and understanding of others and recognise the importance of supporting diversity for a cohesive community
- understand how relationships are developed and use interpersonal skills to establish and maintain respectful relationships
- work effectively in teams and develop strategies to manage challenging situations constructively.

Other resources and programs to support the **Child Safe Policy** and to be compliant with **Ministerial Order 870** will be considered and included as the school grows and evolves. Notes:

- Student behaviour and resilience building etc can be included in the Student Wellbeing and Engagement policy.
- A curriculum policy should incorporate how health, resilience and social and emotional wellbeing will be addressed through the curriculum.
- A 'child-friendly' process for reporting should be develop
